SHIRAZ/SYRAH, 'GRANGE' PENFOLDS 2001 - 895.00

GEORGIA

One of, if not the oldest winemaking countries dating back to 6000BC. The Georgians would bury their grape juice in Amphora's (clay vessels) underground for preservation, only to discover on their return they had fermentation instead. Bedoba is keeping traditions alive by still ageing some of their wine in Amphora today.

ENGLISH SPIRIT

MASTER DISTILLERS

ESTD MMXI

English Spirit is a truly spectacular distillery nestled in the sleepy Essex countryside at the historic Great Yeldham Hall **only 0.5 miles from us at The White Hart**. A quintessentially English property with origins in the 13th century. The complex includes the Black Barn, a charming Grade II listed Victorian barn, which is home to our distilling hall and small batch copper pot stills. Like all good stories, ours started with discovering a loophole in an archaic law, that prevented craft distilling. That's where Dr John Walters comes in: a former Oxford scholar, with a background in biochemistry and the pharmaceutical industry.

Here at The White Hart, we love eccentricity, and we believe English Spirit do it best.

SPIRITS - £6.95

DR J'S, LONDON DRY GIN

Only four botanicals are used: an uncommonly small selection nowadays: but the result is a perfectly balanced flavour profile where each ingredient stands out brightly and nothing is lost for what we think is the best gin taste available. This is one of the extremely rare gins to be made with the distillery's own base spirit. Our single-distilled sugar beet vodka base provides a glorious smoothness and mouthfeel to the spirit: which makes it nice enough to be drunk neat (without wincing).

OLD SALT ENGLISH RUM

We go to great pains to ferment the molasses ourselves, which takes either two or three weeks, depending on the temperature. As we're sure you've noticed, we don't benefit from a tropical climate here in the UK! We then take the molasses wash and distil it three times in our copper pot stills.

Approximately 200 litres of molasses end up as 20 litres of rum: capturing the heart of the spirit, whilst stripping out the bad stuff. It's much fiddlier than how rum is commonly made, but entirely worth it. We then finish the rum for a few months in English oak barrels. This adds its own flavour notes to the spirit and gives it a lovely golden colour. Unlike most premium rums, we don't rely on the barrel to do the essential bit of adding flavour and removing the bad bits of the spirit for us: Dr John's distilling expertise means we get that right the first-time round. A very English way of making rum, all in pursuit of making the best drop we possibly can.

ENGLISH SPICED RUM

This is the original English Spiced Rum: the first spiced rum made with a UK distilled spirit. We use our tremendous Old Salt Rum as a base - giving us not only a smooth sip but also complete control over the flavour profile. The flavours used as the 'spices' are also unusual: we've opted for a fruity and floral route rather than the common spicing route of cloves, allspice, pepper and the like. This is a premium spiced rum with a delicious and aromatic taste.

LIQUEURS - £5.50

LIMONGINO - ZESTY LEMON LIQUEUR

Unlike its Italian counterpart our Limongino is a gin liqueur, not vodka based. We use a three-step process of infusing, distilling and sous vide (slow cooking) the spirit to capture all the zesty flavours of the lemons, before blending with a sprinkle of sugar.

ENGLISH SAMBUCA - THE ONLY ONE IN EXISTENCE!

From the UK's only sambuca distillers comes the rarest and most surprising of tipples: an utterly gorgeous sambuca that tastes second to none. You can sip it without setting fire to it, or worse. Forget your past encounters with sambuca and reset your view of aniseed with a glorious glass of scratch distilled English Sambuca. One of the key things that makes this sambuca special is the base spirit: we've opted for the rarely encountered traditional route of using elderberry eau de vie rather than neutral grain spirit as a base. The difference is obvious in the smoothness, mouthfeel, and intensity of flavour in the spirit. Yes, it's true: craft sambuca is as tasty as it sounds.

SALTED CARAMEL VODKA

Our single-distilled, creamy East Anglian sugar beet vodka is blended with gorgeous natural caramels, with a good pinch of Maldon Sea salt. Our world class small batch vodka is evident by the sumptuous smoothness of the sip, as well as the cream soda undertones. Simply delicious.

CHILLI CHOCOLATE VODKA

We single distil our East Anglian sugar beet vodka, the base spirit, from scratch. Single distillation of vodka is a rare feat within the spirits industry as it's difficult to produce a spirit of 96% ABV in one go (the legal definition of vodka). However, using our knowledge and custom-engineered stills, we were able to achieve this: meaning our vodka is silky smooth while retaining delicate creamy flavours. From here the vodka is re-distilled with cocoa and fresh chillies, with just a touch of English sugar added to balance out the flavour profile.

TOFFEE VODKA

We opt for using sugar beet as the base ingredient in our vodka, instead of grain. The high starch content helps us turn root into a rich, flavourful vodka with deep creamy undertones, plus there is an abundance of it in East Anglia, our historic region. We then blend our vodka with our five caramels, each with complimentary flavour profiles. The result is a truly artisanal toffee vodka that will send you straight to toffee heaven.

CARAMEL RUM

Creamy caramel flavours don't come better than this: a divine taste of our original English rum, blended with old fashioned caramelised sugars. The rich caramel notes complement the finesse of our small batch rum, from the copper pot stills in our distillery, made from scratch with pure, treacly molasses. Gorgeous notes of sticky toffee pudding, with a hint of Christmas cake and a silky-smooth mouthfeel.

SOUS VIDE ARABICA COFFEE LIQUEUR

We love our coffee: so, we've pulled out all the stops to deliver this roasted sable gem. We distil our bespoke blend of arabica beans with our creamy sugar beet vodka, before pairing with a slow cooked sous vide blend, to grab every note of aromatic, fruity, malt-creamy goodness.
